

## Ohio Revised Code

### Section 1506.05 Promoting public access to Lake Erie.

Effective: October 20, 1994

Legislation: Senate Bill 182 - 120th General Assembly

---

The director of natural resources shall prepare and maintain a current inventory of public access facilities and areas for the Ohio shoreline of Lake Erie, including, without limitation, shoreline parks, cultural resources, natural areas, wildlife refuges, harbors of refuge, boat launch ramps, shoreline fishing areas, and beaches. No later than December 31, 1994, the director shall evaluate public access to Lake Erie and may prepare and publish plans and policy recommendations as necessary for enhancing public access to Lake Erie. The director shall update any plans and policy recommendations at least once every five years. Every state agency and political subdivision, upon the director's request, shall cooperate with the director and furnish information for the public access inventory and any public access plans.
